

Pecorino Golden Crust 1000

Cod.: 00272

This is an evolution, or rather a small variation, of our classic historic cheese, defined as a thousand because it is produced in spring, it is sold mainly in the Christmas period and, given its long aging period, it falls to such an extent that it becomes less than one kilo, therefore less than 1000 grams. As for all the other sheep's cheeses, we take care of the maturing ourselves according to the most ancient Tuscan traditions. During the aging process it is treated with olive oil and at the end of its maturation, it assumes this characteristic golden color. Labeled with a seal of lacquer wax and a pendant that also makes it beautiful presentation for a gift.
